

Choose Joy

Andrew Christjoy (2021)

Capo 1

G

When the world around you crumbles and the night is growing dark

D

Overwhelmed by stress and sadness, overcome by a burdened heart

Em

You call out but there's no answer, as the evil circles in

C

Anxiety is crippling, there seems no way to win

You believe and look for answers from a God you pray is there

But when all you hear is silence, you might think He doesn't care.

We must recognize the season and understand that in this fight

The battle has been won by a God who'll make things right.

C

Choose Joy. Choose Joy. Choose Joy. Choose Joy. (echo "Glory Hallelujah")

While it's easier to hide and look for others to lift you up

What we need are Christian heroes who refuse to give up

As the wind and storm attack us, the devil celebrates his win

God's love has made us stronger, to overcome all fear and sin.

There are those who'll give up easy. You are stronger than you think.

With the light of Christ inside you, push the darkness to the brink

All of us now stand together, round the throne of grace we sing

Cause in the end we'll gather in the presence of the King.

Choose Joy, Glory Hallelujah! Choose Joy, Glory Hallelujah!

Choose Joy, Glory Hallelujah! Choose Joy, Glory Hallelujah!
